DIANA JONES • \$15

The Uptown is entering its 25th season with a new home, and we couldn't be happier having Diana Jones perform. Diana has a fascinating bio, growing up in the northeast in an adoptive family but always having an affinity for the rural music of the south. When she searched for her birth family in her 20's, she discovered a mysterious link to the mountain music she always adored. It blends into a wonderful results – her songs have been covered by Joan Baez & Gretchen Peters – as she delivers her topical subject matter in a homespun manner with a beautiful & distinctive voice.

NOW IN OUR 25TH YEAR!
